Udemy

**The complete Web Developer in 2021 : Zero to Mastery** .....Dec 2020 – Jan 2021

Udemy

## PROJECTS

**URL shortening API Landing Page** ..... 2021

This project presents some nice layout challenges. It is an opportunity to practice Flexbox or CSS Grid. It will get the basics of building a responsive component. Thinking about positioning images and content next to one another. This project was made with the help of React.

### **Study on Public Distribution**

PDS System is a government-sponsored chain of shops entrusted with the work of distributing basic food and Non-food commodities to the needy sections of the society at very cheap prices. My work was to study the Flow of the system and then take the family feedback about this system whether the system is working properly. And at last to my report on the whole survey including the limitations of the system.

## TRANING

**Anti-Lock Braking System, Tata Motors** .....May 2020  
Jamshedpur

It prevents the wheels of the vehicle from locking up during braking situations. Based on information from wheel Speed sensors, the ABS unit adjust the pressure of the brake fluid in order to avoid accidents. Wheel lock means That the wheels of the vehicle have stopped rotating and as a result the vehicle begins to slide.

## HOBBIES

- i. Travelling
- ii. Watching movies
- iii. Listening Songs
- iv. Interest in watching Sports
